Natural colour palette is always pleasant for human eye and comfortable for using in living space. These colours make people feel relaxed, safe, and serene, as they were used at homes since the beginning of mankind.

In this project, I tried to connect the peaceful feeling and new technologies that make the apartment the most comfortable space for people to live in.

This place was created for young couple that travels a lot, have a bunch of friends and a big family to hang around at their home.

As this penthouse is based in Kyiv, I used a lot of Ukrainian brands such as Fild (lightening), Interia (sofa), and Mazepa (chairs and stools).

Also, one of the main feature is unusual fulfillment of the kitchen. It does not the traditional upper part of the kitchen — only the stylish shelf with backlight.

Moreover, the kitchen apron is made of porcelain tile from Atlas Concorde. Mosaico porcelain tiles were used for bar and its top is made of big slab with marble effect from Atlas Plan.

Armourcoat finishing from Fatura.ua plays a role of an ideal background for all pieces of furniture and keeps the pleasant light effect at home.

Kreoo covering from Listelli is the best choice for this naked kitchen as these little spots make amazing accents on the floor. The rest of the living space on the first floor is covered by MAFI parquet from Listelli. The Intelligent home system from Intelcity makes possible to set home cinema which is fabulous feature for a young family.
