

SBID PROFESSIONAL INDEMNITY INSURANCE

The Society of British and International Design (SBID) is delighted to announce the SBID Professional Indemnity Insurance scheme created for professional SBID accredited interior designers, architects and specifiers.

Professional indemnity is the most relevant business insurance for interior design professionals and a condition of accredited membership of the Society. It offers financial protection against errors and omissions which may result in a negligence dispute and the associated legal costs and expenses.

The scheme has been developed to make exclusive insurance policies available to membership and includes an unlimited collateral warranty checking for all policy holders, in-house claims handling, a reimbursement of mitigation costs and specialist advice from one of the UK's leading insurance brokers, providing many areas of cover that have not previously been available for the design industry.

SBID President, Vanessa Brady OBE states that "The role of SBID has been instrumental in guiding the profession's trading standards through practice, competence and education. The insurance scheme is the last element to the five year plan and provides even greater support to our members and the industry at large"

SBID will be hosting an exclusive business breakfast to launch the newly developed scheme on Thursday 12th of February 2015. To register your interest, email admin@sbid.org.

The SBID Professional Indemnity Insurance has been developed in partnership with Stackhouse Poland Ltd.

About The Society of British & International Design (SBID)

SBID is the standard-bearer organisation of the profession of interior design in Britain and represents members in practice, higher education and industry. The organisation supports the profession locally, nationally and internationally and is part of a global network of 50,000 designers who are professionally accredited.

SBID is the British organisation selected by the 16 nation members of the European Council of Interior Architects and the NCIDQ in the USA and Canada to represent their professional accreditation standards in Britain.
